All our winter youth basketball program coaches are volunteers with the majority being parents of a child playing. In our older age groups, we generally see a significant number of college students who volunteer to take on head or assistant coaching roles. During the 2018-2019 Youth Basketball season we certified well over 100 coaches. We typically see a wide range of experience (both playing and coaching) among our many volunteers, but one commonality among all is the fact they volunteered their time and efforts to help make our youth basketball program a success.
